## Education

**Ebla Private University**

**Sep. 2022 – Feb. 2025**

*Information Technology and Communication Faculty*

*Aleppo, Syria*

## About Me

Proactive Software Engineer graduate with a strong background in application development. Aiming to support teams in delivering high-quality software solutions. Love to expand my knowledge and keep learning new technologies, and taking on new challenges. I am particularly passionate about creating applications that impact the world and solve real problem people have.

## Projects

**Recipe Generator App** | *React, Claude AI, TypeScript*

**2025**

- A Recipe Generator App where you provide a list of ingredients (4 or more), and it generates a recipe using Claude AI API.
- Built with React and TypeScript, integrating AI APIs to create dynamic recipe suggestions.

**ChatUp** | *MERN, Socket.io, TailwindCSS, DaisyUI, Zustand, JWT*

**2025**

- A real-time chat application implementing authentication and authorization with JWT.
- Supports real-time messaging with Socket.io, online user status tracking, and global state management using Zustand.
- Styled with TailwindCSS and Daisy UI for modern responsive UI.
- Includes comprehensive error handling on both server and client sides.

## Technical Skills

**Languages:** Python, NestJS, Express, Golang, TypeScript, Javascript, HTML/CSS, SQL

**Tools/Technologies:** Linux System Administration, Docker, Git, Prisma, Zustand, neon.tech, shadcn, ReactJS, NodeJS, NextJS
